Preface viii

The Oosterschelde estuary, a case-study of a changing ecosystem: an introduction
by P.H. Nienhuis & A.C. Smaal 1

THEME I: HYDRODYNAMIC AND GEOMORPHOLOGICAL CHANGES IN THE TIDAL SYSTEM

Introduction
by W.B.M. ten Brinke 15
Hydrodynamic characteristics of the Oosterschelde in recent decades
by J. Vroon 17
Changes in basin geomorphology after implementation of the Oosterschelde estuary project
by J.P.M. Mulder & T. Louters 29
Fine sediments in the Oosterschelde tidal basin before and after partial closure
by W.B.M. ten Brinke, J. Dronkers & J.P.M. Mulder 41

THEME II: STRUCTURE AND FUNCTIONING OF THE PELAGIC SYSTEM

Introduction
by C. Bakker 57
Turbidity, nutrients and phytoplankton primary production in the Oosterschelde (The Netherlands) before, during and after a large-scale coastal engineering project (1980–1990)
by L.P.J.M. Wetsteyn & J. Kromkamp 61
A new trend in the development of the phytoplankton in the Oosterschelde (SW Netherlands) during and after the construction of a storm-surge barrier
by C. Bakker, P.M.J. Herman & M. Vink 79
Nutrient concentrations and planktonic diatom-flagellate relations in the Oosterschelde (SW Netherlands) during and after the construction of a storm-surge barrier
by C. Bakker & M. Vink 101
Zooplankton species composition in the Oosterschelde (SW Netherlands) before, during and after the construction of a storm-surge barrier
by C. Bakker 117
Zooplankton biomass in the Oosterschelde (SW Netherlands) before, during and after the construction of a storm-surge barrier
by C. Bakker & P. van Rijswijk 127
Plankton size distributions and trophic relations before and after the construction of the storm-surge barrier in the Oosterschelde estuary
by M.L.M. Tackx, P.M.J. Herman, P. van Rijswijk, M. Vink & C. Bakker 145

THEME III: THE STRUCTURE OF THE BENTHIC SYSTEM

Introduction
by P.M. Meire 153
Spatial and temporal patterns of intertidal macrobenthic populations in the Oosterschelde estuary: are they influenced by the construction of the storm-surge barrier?
by P.M. Meire, J. Seys, T. Buijs & J. Coosen 157
Microphytobenthos in the Oosterschelde (The Netherlands), 1981–1990; consequences of a changed tidal regime
by D.J. de Jong, P.H. Nienhuis & B.J. Kater 183
Composition, distribution and biomass of the meiobenthos in the Oosterschelde estuary (SW Netherlands)
by N. Smol, K.A. Willems, J.C.R. Govaere & A.J.J. Sandee 197
The effects of prolonged emersion and submersion by tidal manipulation on marine macrobenthos
by H. Hummel, A.W. Fortuin, R.H. Bogaards, A. Meijboom & L. de Wolf 219
Effect of sedimentological and hydrodynamical changes in the intertidal areas of the Oosterschelde estuary (SW Netherlands) on distribution, density and biomass of five common macrobenthic species: *Spio martinensis* (Mesnil), *Hydrobia ulvae* (Pennant), *Arenicola marina* (L.), *Scoloplos armiger* (Muller) and *Bathyporeia* sp.
by J.C. Coosen, J. Seys, P.M. Meire & J.A.M. Craeymeersch 235
Long-term changes (1979–89) in the intertidal macrozoobenthos of the Oosterschelde estuary: are patterns in total density, biomass and diversity induced by the construction of the storm-surge barrier?
by J.J. Seys, P.M. Meire, J.C. Coosen & J.A.M. Craeymeersch 251
Changes in the sublittoral hard substrate communities in the Oosterschelde estuary (SW Netherlands), caused by changes in the environmental parameters
by M.J. de Kluijver & R.J. Leewis 265
Tidal reduction and its effects on intertidal hard-substrate communities in the Oosterschelde estuary
by A.J.M. Meijer & H.W. Waardenburg 281

THEME IV: ECOLOGY OF THE SALT MARSHES

Introduction
by J. de Leeuw 299
Changes in area, geomorphology and sediment nature of salt marshes in the Oosterschelde estuary (SW Netherlands) due to tidal changes
by D.J. de Jong, Z. de Jong & J.P.M. Mulder 303
Consequences of a tidal reduction for the salt-marsh vegetation in the Oosterschelde (The Netherlands)
by D.J. de Jong & A.M. van der Pluijm 317
The response of salt marsh vegetation to tidal reduction caused by the Oosterschelde storm-surge barrier
by J. de Leeuw, L.P. Apon, P.M.J. Herman, W. de Munck & W.G. Beeftink 335

THEME V:
THE RESPONSE OF BENTHIC SUSPENSION FEEDERS TO ENVIRONMENTAL CHANGES

Introduction
by A.C. Smaal 355
Mussel culture in a changing environment: the effects of a coastal engineering project on mussel culture (*Mytilus edulis* (L.)) in the Oosterschelde estuary (SW Netherlands)
by M.R. van Stralen & R.D. Dijkema 359
Variability in stock assessment of cockles (*Cerastoderma edule L.*) in the Oosterschelde (in 1980–1990), in relation to environmental factors
by J.C. Coosen, F. Twisk, M.W.M. van der Tol, R.H.D. Lambeck, M.R. van Stralen & P.M. Meire 381

Biomass and standing stock on sublittoral hard substrates in the Oosterschelde estuary (SW Netherlands)
by R.J. Leewis, H.W. Waardenburg & M.W.M. van der Tol 397
The role of the blue mussel *Mytilus edulis* in the cycling of nutrients in the Oosterschelde estuary (The Netherlands)
by T.C. Prins & A.C. Smaal 413

THEME VI: THE ANALYSIS OF A DYNAMIC SIMULATION MODEL FOR THE OOSTERSCHELDE ECOSYSTEM

Introduction
by P.M.J. Herman 431
SMOES: a Simulation Model for the Oosterschelde EcoSystem. Part I: Description and uncertainty analysis
by O. Klepper, M.W.M. van der Tol, H. Scholten & P.M.J. Herman 437
SMOES: a Simulation Model for the Oosterschelde EcoSystem. Part II: Calibration and validation
by H. Scholten & M.W.M. van der Tol 453

THEME VII: THE HIGHER TROPHIC LEVELS

Introduction
by J. Mees 475
The mobile epifauna of the soft bottoms in the subtidal Oosterschelde estuary: structure, function and impact of the storm-surge barrier
by K. Hostens & O. Hamerlynck 479
Changes in the fish fauna of the Oosterschelde estuary – a ten-year time series of fyke catches
by O. Hamerlynck & K. Hostens 497
Changes in the waterbird populations of the Oosterschelde (SW Netherlands) as a result of large scale coastal engineering works
by H. Schekkerman, P.L.M. Meininger & P.M. Meire 509
Consumption of benthic invertebrates by waterbirds in the Oosterschelde estuary, SW Netherlands
by P.M. Meire, H. Schekkerman & P.L.M. Meininger 525
The harbour seal, *Phoca vitulina*, in the Oosterschelde: decline and possibilities for recovery
by J. Mees & P.J.H. Reijnders 547
Historical population size of the harbour seal, *Phoca vitulina*, in the Delta area, SW Netherlands
by P.J.H. Reijnders 557

THEME VIII: THE OOSTERSCHELDE ESTUARY: AN EVALUATION OF CHANGES 561

Policy planning in the Oosterschelde estuary
by C.J. van Westen & C.J. Colijn 563
The Oosterschelde estuary: an evaluation of changes at the ecosystem level induced by civil-engineering works
by P.H. Nienhuis, A.C. Smaal & M. Knoester 575

General index 593
